Before they start school,
start swimming
A guide for parents

Before they start school, start swimming

Encouraging your child to learn to swim is one of the most important skills in life. If you get children interested in swimming when they're young there's a good chance they'll enjoy the water for the rest of their lives, and remain fit and healthy.

Scottish Swimming has developed a National Framework for swimming in Scotland which provides a clear set of National Standards and a pathway which allows you to see how your child is progressing. Scottish Swimming and Scottish Water have joined forces to roll out the Learn to Swim programme, across Scotland helping more than 100,000 children across the country learn to swim. This will give children the skills, confidence and knowledge to stay safe and be competent swimmers.

The National Framework for Swimming in Scotland is an inclusive programme which develops opportunities and provides a progressive pathway for people with a physical, sensory or learning disability. Making your lesson provider aware of your child's needs is essential in ensuring your child receives the best possible experience.

Enrol your child in swimming lessons today and you'll also have peace of mind that they're safer when near water."

What should you expect from a swimming lesson programme?

All children should be having fun! They should be involved in games-based activities to help them learn core swimming skills such as breathing, submerging and moving in the water. Swimming strokes should be introduced gradually once the child has learned basic core aquatic skills. Lessons last around thirty minutes and children should be as active as possible throughout the lesson.

What are the Core Aquatic skills?

These are the building blocks for learning more complex practices and they are fundamental to your child becoming a competent swimmer. For example, blowing bubbles in the bath/pool is the first stage for aquatic breathing; floating helps a child establish good body position for strokes to be developed and is key to teaching children safety.

It is imperative that the core aquatic skills are taught well to enable swimmers to advance to more recognised techniques such as swimming the four main strokes.

“Swimming is a sport for all and a sport for life and adopting this framework will encourage individuals to remain in the sport, whether as a competitor or for the fun, fitness and friendship element, as well as producing new role models on the world stage.”

Alan Lynn, Scottish Swimming National Coach

National Framework for swimming in Scotland

Within the National Framework there are three programmes: Early Years; Learn to Swim; and Adults.

Early Years Programme:

This consists of three levels: Adult and Baby; Adult and Toddler; and Adult and Child, the earlier you introduce your child to water the more confident he/she will become.

The Early Years programme is designed to introduce you and your child to the water in a fun way making it exciting and enjoyable for you both. It will provide you as a parent with confidence and skills to help teach your child to swim.

Learn to Swim Programme:

This consists of six levels: Preschool, Swim Skills 1, Swim Skills 2, Swim Skills 3, Swim Skills 4 and Club Ready (Swim, Dive, Synchronised Swimming, Water Polo) with three overarching national standards: Gold, Silver and Bronze. The programme provides a fun, progressive and all-inclusive pathway for children to participate in any aquatic discipline to whatever level they aspire to.

It has the core philosophy of being fun, child-centred and based on establishing the core aquatic skills which are fundamental to a child learning more complex skills.

Adult Programme:

Please visit our website for more information at www.scottishswimming.com

EARLY YEARS / ADULT & BABY

Aim: To introduce the adult and baby to a swimming environment and develop the confidence and skills of the adult to ensure the safe and effective handling of the baby in the water.

- Objectives:**
- The adult will have the range of skills and knowledge necessary to handle their baby confidently and safely in the water
 - The 'quality time' aspect will be a key element of the adult and baby aquatic experience
 - Adult and baby will have experienced basic body positions and a range of movements in water
 - Adult and baby will have developed water confidence and enjoyment in the aquatic environment

EARLY YEARS / ADULT & TODDLER

Aim: To encourage independent movement and develop the water confidence and core aquatic skills of the toddler through structured play.

- Objectives:**
- The toddler will have been involved in interaction with other adults and children
 - The toddler will have experienced independent movement with buoyancy aids
 - The toddler will have developed some basic core aquatic skills through structured play focusing on enjoyment, fun and self-discovery
 - The toddler will have developed greater water confidence

EARLY YEARS / ADULT & CHILD

Aim: To further develop the core aquatic skills through structured play and develop the independence necessary for the next level (without an adult in the water).

- Objectives:**
- The child will demonstrate independent movement and a range of core aquatic skills
 - The child will have developed confident submersion and aquatic breathing
 - The child will have been involved in interaction with other adults and children
 - The child will become more attentive to the teacher's instruction and less reliant on adult support in preparation for the next level

Learn to Swim

PRESCHOOL

Aim: To become water confident and develop core aquatic skills (without adult assistance but with buoyancy aids as required).

- Objectives:**
- Introduce complete non-swimmers to the aquatic environment and establish an understanding of safety in and around water
 - Develop and progress water confidence
 - Establish an understanding of basic core aquatic skills
 - Encourage independent movement
 - Develop skills through enjoyment, fun and self-discovery

SWIM SKILLS 1

Aim: To further develop water confidence and develop core aquatic skills without aids.

- Objectives:**
- Develop confidence and ability to perform a wide range of core aquatic skills without buoyancy aids
 - Develop the basic technique of the 4 strokes
 - Introduce the basic technique of sculling
 - Develop balance and buoyancy through a variety of activities

SWIM SKILLS 2

Aim: To increase the competency of the core aquatic skills and develop basic stroke technique.

- Objectives:**
- Introduce and progress new core aquatic skills
 - Develop stroke technique to include all 4 strokes
 - Introduction to diving (pool permitting)
 - Develop awareness and feel for the water through a variety of core aquatic skills

SWIM SKILLS 3

Aim: Introduce more advanced stroke technique and achieve Triple S standard.

- Objectives:**
- Further develop competency in all four strokes
 - Development of Diving
 - Achieve the Triple S Award / Scotland Safer Swimmer Award
 - Further develop Butterfly and Breaststroke aiming to achieve legal technique

SWIM SKILLS 4

Aim: To improve the quality of stroke technique, introduce multi-aquatic skills/disciplines and basic lifesaving skills.

- Objectives:**
- To demonstrate competent technique in all four strokes
 - Introduce lifesaving skills and basic aquatic discipline skills
 - To provide basic skills to enable progression in to all aquatic disciplines including life saving

CLUB READY SWIM

Aim: To improve and maintain stroke technique over distance and develop basic training and race skills producing a swimmer who is 'Club Ready'.

- Objectives:**
- Advance swimming stamina in all four strokes while maintaining technique
 - Improve efficiency in all 4 strokes
 - Develop turn technique for all 4 strokes
 - Knowledge and understanding of club training practices in a variety of core aquatic skills

CLUB READY WATER POLO

Aim: To introduce basic Water Polo technique and ball handling skills.

- Objectives:**
- Demonstrate Water Polo strokes
 - Understand goal keeping skills
 - Establish an understanding of the basic rules
 - Develop ball handling skills
 - Develop skills through enjoyment, fun and self-discovery

CLUB READY SYNCHRONISED SWIMMING

Aim: To introduce basic Synchronised Swimming, developing from the core aquatic skills and stroke techniques. To highlight the pleasure and interest obtained from working in pairs or small groups, from creative work and from working to music that synchronised swimming offers.

- Objectives:**
- Swimmers will develop the skill of sculling
 - Swimmers will develop the three strokes (Frontcrawl, Backcrawl and Breaststroke) and their variations for Synchronised Swimming use
 - Swimmers will be able to perform a range of the key body positions
 - Swimmers will perform a range of simple movements/figures
 - Swimmers will work in twos or threes to perform simple sequences of strokes and skills to music

DIVE SKILLS 1 / LEARN TO DIVE

Aim: To introduce new core aquatic skills, try out diving and cross over from swimming, gymnastics or trampolining.

- Objectives:**
- Pass Dive Skills 1, 2 and 3
 - Learn a head first entry from the poolside
 - Introduce forward and backward directions
 - Learn dive shapes
 - armswings

DIVE SKILLS 2 / LEARN TO DIVE

Aim: Introduction to six directions of dives from the poolside and the 1 metre and 3 metre boards.

- Objectives:**
- Perform quality movements and progressions
 - Attention to detail
 - Develop skills, chains and progressions

CLUB READY DIVING

Aim: To join a diving club and compete in events.

- Objectives:**
- Able to perform pike fall, tuck roll and straight fall from the 3 metre diving board
 - Able to perform a forward dive tuck, back fall and back dive from the 1 metre diving board
 - Able to jump from the 5 metre forwards
 - Potential to become competitive novice/skills level diver
 - Knowledge and understanding of club training practices and competition format and rules

NATIONAL STANDARDS

These levels have been split into three National Standards: Bronze, Silver and Gold. These standards have been created to provide an overview of what a child has achieved at certain stages of the pathway and also to deliver consistent standards across Scotland. The National Standards contain two Learn to Swim levels within each of them:

BRONZE STANDARD

Becoming Water Confident

Preschool and Swim Skills 1 are targeted at developing core aquatic skills and water confidence

- Become confident in the water
- Develop basic movement in the water
- Develop skills through a fun and progressive pathway

SILVER STANDARD

Developing a Safer Swimmer

Swim Skills 2 and 3 are targeted at further developing core skills and traditional stroke technique with the aim of achieving Triple S (Scotland Safer Swimmer)

- Develop the four strokes
- Develop a more competent swimmer
- Achieve Triple S

GOLD STANDARD

Achieving Aquatic Competence

Swim Skills 4 and Club Ready are targeted at further improving stroke technique and introducing a multi aquatic approach

- Become 'Club Ready'
- Water safety aware and proficient
- Pathway to lifelong participation

To achieve Gold Standard, Swim Skills 4 and one Club Ready level needs to be achieved

After reading this leaflet you may still have some questions around your child learning to swim. You can find answers to some of the questions we regularly receive from parents at www.scottishswimming.com

**Scottish
Water**

Trusted to serve Scotland

Proud to Support

Scottish Water is proud to partner with Scottish Swimming and support the Learn To Swim programme.

We supply 1.35 billion litres of clear, fresh drinking water to customers across Scotland every day of the year – that's enough to fill 540 Olympic-sized swimming pools!

Giving young people the skills to be able to swim and have confidence in and around water – whether it's in the pool, at the beach or in the areas next to our rivers, lochs or reservoirs – is vital.

And of course staying hydrated by drinking clear, fresh Scottish water is a great way to maintain your wellbeing as part of a healthy lifestyle.

Stay safe – Hydrate – Be great
